

WASHINGTON – Today, Congressman Ryan made the following statement regarding the tragedy that occurred at Youngstown State University on Sunday:

"I spoke with YSU President Cynthia Anderson over the weekend, and have offered the university community all the resources of my office in preventing further violence in our community.□ My thoughts and prayers are with the family and friends of Jamail Johnson and those still recovering from their injuries.□ Though devastating, this tragedy does not define our community – we will mourn together, heal together, and continue to work together in shaping a brighter future for all residents of the Mahoning Valley."
